

MUHAMMAD SYAZANI ADLI BIN RAMLI

SOFTWARE ENGINEER

+60 18-284 4508 | syaazanii0805@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL PROFILE

Software Engineer with over 3 years of industry experience developing, maintaining, and enhancing business applications, backend services, APIs, databases, and system integrations. Experienced in full-stack development using Java, Quarkus, Vue.js, PHP, JavaScript, TypeScript, NestJS, MySQL, MariaDB, and MongoDB. Currently responsible for production systems, technical troubleshooting, integration solutions, and serving as Technical PIC for a business and accounting management system, while also mentoring interns and junior developers.

WORK EXPERIENCE

Software Engineer / Product Engineer | SIM IT Sdn. Bhd.

Jun 2023 - Present

Johor Bahru, Johor

- Develop and maintain production full-stack applications across accounting, hostel management, client portal, e-invoicing, and system integration platforms.
- Serve as Technical PIC for the Business & Accounting Management System, coordinating maintenance, bug fixes, minor enhancements, troubleshooting, and day-to-day system reliability.
- Design and develop frontend components, backend services, REST APIs, database structures, and integrations using Vue.js, Java Quarkus, NestJS, PHP, JavaScript, TypeScript, MySQL/MariaDB, and MongoDB.
- Investigate and resolve production issues while minimizing disruption to users and business operations.
- Lead and mentor junior developers and interns through technical guidance, code reviews, and development best practices.
- Design integration solutions that allow internal and third-party applications to communicate with existing company systems.

Software Engineering Intern | SIM IT Sdn. Bhd.

Mar 2023 - Jun 2023

Johor Bahru, Johor

- Developed and maintained full-stack web applications covering frontend, backend, REST APIs, and database functionality.
- Implemented application features using Java Quarkus, JavaScript, Vue.js, PHP, and SQL while collaborating with senior developers.
- Performed debugging, system testing, bug fixing, and database troubleshooting for production-oriented applications.

IT Intern | Kota Tinggi District Education Office

Aug 2020 - Sep 2020

Kota Tinggi, Johor

- Developed an internal letter management system to improve administrative efficiency.
- Designed multimedia materials for official events and provided audiovisual, networking, and general IT support.

SOFTWARE DEVELOPMENT PROJECTS

Mini API & Mini App Integration Platform

2026 - Present

Integration platform enabling internal and third-party developers to build Mini Apps that communicate with the company's core accounting system.

- Designed a dedicated integration layer between Mini Apps and the core accounting application.
- Developed backend services and REST APIs using NestJS and TypeScript.
- Implemented MongoDB for integration-related data and designed the platform to support new Mini Apps without direct changes to the core accounting system.

Technologies: NestJS, TypeScript, MongoDB, REST API, API Design

Business & Accounting Management System

2023 - Present

Web-based business and accounting management system supporting company and customer operations.

- Serve as Technical PIC for application maintenance, production issue resolution, and minor enhancements.
- Develop and maintain backend functionality using PHP and frontend interfaces using JavaScript, jQuery, and HTML.
- Work with MySQL/MariaDB for application data processing and troubleshooting, and supervise interns involved in maintenance activities.

Technologies: PHP, JavaScript, jQuery, HTML, MySQL, MariaDB

Hostel Management System

2023 - Present

Microservice-based hostel management system integrated with an education management platform and used for student distribution, room allocation, and check-in/check-out monitoring.

- Developed frontend modules using Vue.js and JavaScript and backend microservices using Java and Quarkus.
- Designed and maintained MySQL relational schemas and REST APIs for student, hostel, room, and attendance data.
- Supported integration with the existing education management system and performed debugging, maintenance, and feature enhancements.

Technologies: Java, Quarkus, Vue.js, JavaScript, MySQL, REST API, Microservices

Client Portal

2024 - 2025

Customer-facing portal integrated with the Business & Accounting Management System.

- Implemented bug fixes, feature enhancements, and maintenance updates across frontend and backend components.
- Developed Vue.js frontend components, Java Quarkus backend services, and MongoDB data handling.
- Supported integration workflows and implemented automation using n8n.

Technologies: Vue.js, JavaScript, Java, Quarkus, MongoDB, n8n, REST API

E-Invoice Management System

2025 - Present

E-invoice management platform designed to integrate with multiple external accounting applications.

- Maintain and enhance the platform, resolve production issues, and implement evolving business requirements.
- Develop Vue.js frontend components, Java Quarkus backend services, and MongoDB data storage.
- Support a plugin-based architecture for integration with different accounting applications.

Technologies: Vue.js, JavaScript, Java, Quarkus, MongoDB, REST API

EDUCATION

Bachelor of Information Systems (Hons.) Intelligent System Engineering |
Universiti Teknologi MARA (UiTM)

Mar 2021 - Aug 2023

Shah Alam, Selangor

CGPA: 3.73

Diploma in Computer Science | Universiti Teknologi MARA (UiTM)

Jul 2018 - Feb 2021

Jasin, Melaka

CGPA: 3.69

AWARDS & SCHOLARSHIPS

- UiTM Vice-Chancellor's Award (2021 - 2023) - Academic excellence throughout all semesters of the Bachelor's Degree programme, with semester CGPAs ranging from 3.50 to 4.00.
- Biasiswa Program Ijazah Dalam Negara, Jabatan Perkhidmatan Awam Malaysia (JPA) (2021 - 2023) - Scholarship awarded to pursue a Bachelor's Degree.
- UiTM Dean's Award (2019 - 2021) - Academic excellence in Semesters 2, 3, 4 and 5 of the Diploma programme, with semester CGPAs ranging from 3.50 to 4.00.

TECHNICAL SKILLS

Programming Languages: Java, PHP, JavaScript, TypeScript, Python, SQL

Frameworks & Libraries: Quarkus, NestJS, Vue.js, jQuery

Databases: MySQL, MariaDB, MongoDB

Backend & Integration: REST APIs, Microservices, API Integration, Third-Party System Integration

Tools & Technologies: Docker, Git, Postman, n8n, JasperSoft, HTML

Professional Capabilities: Full-Stack Development, Backend Development, Database Design, Production Troubleshooting, Code Review, System Integration, Debugging, Software Testing

LEADERSHIP & PROFESSIONAL SKILLS

Technical project coordination | Intern supervision and mentoring | Code review | Problem solving | Production troubleshooting | Technical communication | Team collaboration | Requirement analysis | Fast learning and adaptability | Managing multiple responsibilities
